# FRANCISCO ENRIQUE SAYAGO

Full Stack Developer | Backend & AI Agents

Villa María, Córdoba, Argentina · fransayago.dev@gmail.com
github.com/Fransaya · linkedin.com/in/francisco-sayago · fransayago.vercel.app

Full stack developer focused on backend development, web applications, and AI agents. At AIAutomatiza, I work in a two-developer team, owning assigned client projects and contributing to SACIA, the company's core CRM.

## EXPERIENCE

### AIAutomatiza

Dec 2025 - Present

**Full Stack Developer** · Remote · Spain

• Own assigned projects from client requirements through development, deployment, maintenance, and production incident resolution.

• Contribute to architecture decisions and code reviews, and help organize and document the team's development practices.

• Develop and maintain SACIA. Optimized PostgreSQL queries, indexes, and functions, frontend requests, realtime subscriptions, and background processes to reduce resource usage in Supabase.

• Build agents for customer support, appointment scheduling, and information analysis using the OpenAI and Anthropic APIs, n8n, and Flowise.

### Maser Informática

Oct 2023 - Jun 2025

**Full Stack Developer** · Córdoba, Argentina

• Developed and maintained e-commerce applications with Angular, Node.js, and PHP, including integrations and relational databases.

• Worked on backend endpoints, Angular application upgrades, and payment and webhook integrations with Mercado Pago.

## INDEPENDENT PRODUCTS

**DoctaInnova** · Build independent software products, including a mobile application currently in development. Work includes product definition and technical implementation.

## TECHNOLOGIES

**Frontend:** TypeScript, React, Next.js

**Backend & data:** Node.js, NestJS, PostgreSQL, Supabase

**AI & automation:** OpenAI API, Anthropic API, n8n, Flowise

**Deployment:** Railway, Fly.io, Google Cloud

## EDUCATION

**Systems Analysis program** · Instituto Leibnitz · Villa María, Córdoba
Thesis in progress.

## LANGUAGES

Spanish: native. English: A2 (self-assessed); technical documentation comprehension, developing spoken and written communication.
